Wagner's first investigation into the payment of overtime at the Delaware Psychiatric Center found that while there were policies and procedures in place to regulate the payment of OT, the procedures were not being followed. Now, Wagner and Delaware Attorney General Beau Biden are looking into possible criminal activity concerning the overtime payments. "We're doing work that we'll pass on to the Attorney General's office. They'll make the ultimate decision in terms of does this reach the level of a criminal act as it relates to overtime or any of the other issues that we've found."
